

Town of Yountville

Sales Period: April 2010 - March 2011

Summary

- Economy:** What the economy needs now is time. Consumers must further shrink huge debts amassed in the mid-2000s. The depressed housing market needs time to recover from a collapse in prices and sales. (Wells Fargo's Chief Economist)
- Jobs:** From 1999 through 2009, U.S. multinational companies added 2.4 million employees overseas while cutting their domestic staffing by 2.9 million. (Commerce Department) More than 467,000 state and local government jobs have vanished since the recession officially ended in June 2009. (Wells Fargo Securities) Each job in state and local government supports an additional 1.3 jobs elsewhere in the economy. (Moody's Analytics)
- Autos:** Wholesale prices for used cars have risen 4.9 percent in the past year. (Manheim) New Auto supply shortage and consumer wariness is slowing demand to a 11.5 million seasonally adjusted annual rate. Domestic models are overtaking foreign manufacturers.
- California Budget:** Elimination of redevelopment, reduction in auto registration fees, reduction in sales tax, and reduction in VLF money allocations to cities pose additional threats to local economies. Legislation to capture sales tax from online retailers such as Amazon and Overstock likely headed for litigation.
