Subject: Pavement Project at Monroe and Adams Street in Yountville

During the week of November 2, 2015 Monroe Street (Lincoln Ave to Yount Street) and Adams Street (Jefferson Street to Yount Street) will be reconstructed. The project includes milling off 3 inches of the existing pavement and then placing 3 inches of new hot mix asphalt. This project schedule is dependent on favorable weather. The contractor, Helmer & Sons, will notify affected residents and post signs 48 hours before any parking restrictions are in effect.

Taking these streets in poor condition to ones which will have a new 20 year life span will be attractive and continue to serve the purpose of public access.

Adams Street current conditions prior to resurfacing.

Monroe Street current conditions prior to resurfacing.
