

PLUMBING RETROFIT & REBATE PROGRAM

Save Water, Save Money!

This program is intended to create long-term water savings by requiring new development to partially offset domestic water use by retrofitting existing non-commercial buildings served by the Water Enterprise with high efficiency toilets, urinals and other low flow water use fixtures.

A \$100 rebate will be paid for each toilet retrofitted. A \$100 maximum rebate will be paid for the cost of purchasing eligible shower heads, bathroom sink faucets and accessories, whichever is less.

- Eligible toilets must use no more than 1.28 gallons per flush (gpf).
- Eligible shower heads must use no more than 2.0 gallons per minute (gpm).
- Eligible bathroom sink faucets and accessories must use no more than 1.5 gallons per minute (gpm).

TIP!

Look for the WaterSense label indicating that the product meets United States Environmental Protection Agency (EPA) Criteria.

Procedure for Retrofit Rebate/Refund:

- Replace more than 3 gpf toilet(s) and/or more than 5 gpm plumbing fixture(s) with a qualifying model.
- Complete the attached Retrofit Credit Rebate/Refund Request.
- Take the old toilet(s) and/or plumbing fixture(s) to the Town Corporation Yard located at 7501 Solano Avenue for disposal. Be sure to obtain a verification signature from Yountville Staff (bottom section of attached form).
- Return the completed form and your original purchase receipt to Town Hall at 6550 Yount Street, Yountville. You may deliver it in person or via U.S. Mail.
- A credit will be issued to your water account. If you do not have an account with the Town of Yountville (reside in a mobile home, condominium, HOA, etc..) you will receive your refund via check within 2-3 weeks.

*The residence must be served by the Town of Yountville water distribution system.
