

EXEMPTION FROM MANDATORY WASTE SERVICE POLICY

As a general rule, the expectation is that any parcel with an active water account generates waste, recycling, and green waste which must be disposed of appropriately and in accordance with California State law including the provisions of AB939 and Town of Yountville Municipal Code.

Requests for an exemption from mandatory waste and recycling service due to occasional use or generation of limited or low volume of waste and recyclables does not meet requirement for a waiver from service unless the following conditions are met:

Exemptions may be granted for the following reasons:

- 1.) **Unit is a granny or second unit on the same/adjacent parcel.** One unit provides services for both.
- 2.) **Unit or home on the same parcel(s) are owned by the same individual or company.**
- 3.) **Two or more units with a shared driveway share garbage service.**
- 4.) **Landscaping/ Irrigation only- no residential water service on the parcel.**
- 5.) **Self-Haul of waste and recycling.** Identification of where garbage/waste is taken to and receipts from the landfill providing documentation of self must be submitted at time of request for an exemption and quarterly thereafter in order to maintain exemption. Self-haul must be to a licensed landfill or other facility which tracks waste stream disposal consistent with the requirements of AB939.

Relief from Requirement to have the Three (3) refuse and recycling totes:

We realize some of our property owners, such as in various HOA's or other locations may not have a need for all three totes due to space limitations or waste generation unique to that property or usage. The Town requires that all users must have a brown toter for waste, but will provide for an exemption from the requirement to have blue recyclable toter and green waste toter or to share these totes with an adjacent neighbor. Please refer to the attached Toter Exemption form. Please contact Upper Valley Waste Disposal & Recycling at (707) 963-7988 for information about your service.
