Subject: Restroom Floor Renovations at Vineyard Park and Yountville Community Park

Beginning the week of November 14, 2016, the restrooms at Vineyard Park, Yountville Community Park and the Community Pool will undergo renovations! The Town will be installing new floors that will make it easier to maintain and clean, and are more sustainable.

At Vineyard Park, the renovations will take a week and the restroom will be closed. An ADA (Americans with Disabilities Act) portable restroom will be available during this time.

The north restroom at Yountville Community Park will undergo renovations for one week during which time the south restrooms will be available. During the following week, the newly renovated restroom at the north end will be open and the south end restrooms will be closed.

We thank you for your cooperation and apologize for the inconvenience as the Town makes these renovations!
