### **Marker replacement - Yountville Pioneer Cemetery**

1. Describe your project, including objectives and goals, and explain how your project will meet these goals.
  - a. The objective is to replace wood grave site markers and non-existing markers on gravesites at the YPC. Currently there are wood grave markers that are deteriorating, illegible, and/or no longer existing.
  - b. The second objective is to mark the sites with the Name birth and death date to mark the site of their remains and to remember the deceased who are buried at the YPC.
  - c. The third objective is to honor and respect our fellow citizens who may not have living family members that can replace markers. The Board members feel that it is important to keep a record of the citizens buried there. These people are a part of our local history.

Include the following:

- Who will benefit from the project and how many people are expected to be impacted by the project?
  - All visitors and citizens will benefit from the Markers because it will identify unmarked grave sites. The beneficiaries can include towns people, tourists, historical inquiry, and people seeking educational or historical purposes to name a few.
- Describe any approvals and permits needed and obtained for your project.
  - There are no permits or approvals needed for this project.

2. What is your outreach plan? Please explain how your project will be open and accessible to the community.
  - a. An informational article in the local paper will inform the community about the installation of the markers and how the funding was sourced for this project.
3. Describe the community support for your project. The YPC board has contacted volunteers who have committed to the project. These are community members and others assisting the YPC in the past.
  - a. What organizations, non-profits, resident groups are involved with the project? The YPC.
  - b. What roles are they playing and describe how collaborative the project is?

We have one person coordinating the design of the markers and acquiring estimates from local businesses. We have other board members completing grant fund

application for expenses. We have other board members and volunteers committed to helping install the markers.

c. What other support exists for your project? Former members of the Yountville Kiwanis Club, local Boy Scouts of America members and local citizens.

4. Is there ongoing maintenance required for your project? If so, what is the plan for maintenance and who is going to be responsible?

a. There may be periodic maintenance/cleaning that the Board of Directors of the YPC will budget for and perform when necessary.

5. Projects should reflect environmental consciousness regarding materials, energy, and conservation. Please describe how your project will meet this goal.

a. Using natural materials for the markers and using approved grave marker standard processing procedures will reflect environmental consciousness.

6. Project Budget: Grant requests may not exceed \$ 20,000. Please explain how the requested funds will be used, how the cost estimate was determined and the status of matching funds. This section is in addition to the cost estimate form. n/a
